

Partnership Proposal: THE CHINOOK & Coolite Bamboo

To: T.K. Lee Company (Coolite Bamboo)

From: David Murphy, Team Leader, Chinook Project

Date: March 2, 2026

Subject: Material Sponsorship & Official Supplier Partnership

Dear Coolite Bamboo Team,

I am writing to formally propose a partnership between the Chinook Project and Coolite Bamboo. As we move into the prototyping and initial production phase of our sustainable urban pedicab, we recognize Coolite as the premier local source for high-quality, heat-treated bamboo in Vancouver.

1. PROJECT OVERVIEW: THE CHINOOK

"The Chinook" is a high-performance, carbon-neutral vehicle designed for urban community and economic development. Our chassis features a 14-layer laminated bamboo monocoque frame reinforced with a carbon fiber core, providing a strength-to-weight ratio 40% better than steel. It is designed to carry a 300kg (660 lbs) payload, meeting the needs of Vancouver's tourism, delivery, and taxi sectors.

2. PARTNERSHIP OPPORTUNITY

We are seeking a Material Sponsorship for the structural heat-treated bamboo poles required for our initial prototypes. In exchange, we offer:

- Official Material Supplier Status: Coolite Bamboo will be featured prominently in our "Official Build Guide" and project documentation.

●High-Visibility Exposure: Your materials will be showcased to the Vancouver tourism community and the academic researchers at UBC Forestry.

●Commercial Potential: Following the successful evaluation of our first sample, and pending financing approval, we anticipate an initial production order of 10 units to launch our first tour fleet.

3. THE CHINOOK INFORMATION KIT

Attached is our comprehensive Chinook Information Kit, which details our fabrication manual, business plan, and financial projections (\$52,600 net potential in 6 months).

Open the Attached Information Kit here: [\[Link to Chinook_Information_Kit.pdf\]](#)

We would be honored to have Coolite's decades of expertise anchoring our local supply chain. I will be hand-delivering this information kit tomorrow and look forward to discussing how we can work together to redefine sustainable urban transit in Vancouver.

Sincerely,

David Murphy
